About Me

I am a third-year Computer Science student at Jimma University with a strong foundation in software development and problem-solving. Proficient in Python, Java, and C++, I enjoy collaborating on innovative projects and effectively communicating technical concepts. I am eager to apply my skills in real-world environments.

Skills

- Programming Languages
- Web Development
- Database Management
- Software Development
- Problem Solving
- Team Collaboration

Objective

Motivated and enthusiastic Computer Science student at Jimma University, seeking an internship opportunity to apply my programming skills and knowledge in a real-world environment. Eager to contribute to innovative projects and gain hands-on experience in software development and technology.

Education

Bachelor of Computer Science
Jimma University
Expected Graduation: 2026

Currently in the third year of study, with a strong foundation in programming, algorithms, and software development.

Actively participating in coding clubs and hackathons to enhance problem-solving skills

Online Learning

Udacity

- Completed courses in:
 - Introduction to Artificial Intelligence: Gained insights into AI principles and applications.
 - Full Stack Web Development: Learned to build dynamic websites using HTML, CSS, JavaScript, and backend technologies.

Projects

Ethiopian University Info
Technologies Used: HTML, CSS, JavaScript, PHP, MySQL.

Educational Guessing Game
Technologies Used: Java, Swing (for GUI), Firebase.

Attendance Management System
Technologies Used: C++, Object-Oriented Programming (OOP), File Handling.
